**1. This opinion contains indications relating to the following items:**

- Box No. I Basis of the opinion
- Box No. II Priority
- Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
- Box No. IV Lack of unity of invention
- Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
- Box No. VI Certain documents cited
- Box No. VII Certain defects in the international application
- Box No. VIII Certain observations on the international application

**2. FURTHER ACTION**

If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further opinions, see Form PCT/ISA/220.

**3. For further details, see notes to Form PCT/ISA/220.**

WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY

International application No.  
PCT/IB2004/051579

Box No. I Basis of this opinion

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

This opinion has been established on the basis of a translation from the original language into the following language, \_\_\_\_\_, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).

2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:

a. type of material

- a sequence listing  
 table(s) related to the sequence listing

b. format of material

- in written format  
 in computer readable form

c. time of filing/furnishing

- contained in the international application as filed.  
 filed together with the international application in computer readable form.  
 furnished subsequently to this Authority for the purposes of search.

3.  In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

4. Additional comments:

WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY

International application No.
PCT/IB2004/051579

**Box No. II Priority**

1.  The following document has not yet been furnished:  
 copy of the earlier application whose priority has been claimed (Rules 43bis.1 and 66.7(a)).  
 translation of the earlier application whose priority has been claimed (Rules 43bis.1 and 66.7(b)).  
Consequently it has not been possible to consider the validity of the priority claim. This opinion has nevertheless been established on the assumption that the relevant date is the claimed priority date.
2.  This opinion has been established as if no priority had been claimed due to the fact that the priority claim has been found invalid (Rules 43bis.1 and 64.1). Thus for the purposes of this opinion, the international filing date indicated above is considered to be the relevant date.
3. Additional observations, if necessary:

Novelty (N)	Claims	<u>1-39</u>	YES
	Claims	<u>          </u>	NO
Inventive step (IS)	Claims	<u>1-39</u>	YES
	Claims	<u>          </u>	NO
Industrial applicability (IA)	Claims	<u>1-39</u>	YES
	Claims	<u>          </u>	NO

**2. Citations and explanations:**

The invention concerns a method, and a system for providing service selection at a mobile terminal comprising means for obtaining required service components of a service, and controller means arranged to order hierarchically services.

The problem to be solved by the invention concerns difficulties in identifying by the end user different content formats from content providers due to the nature of the cross-media delivery in the DVB-T standard which is shared by many countries.

Document cited in the International Search Report:  
D2: EP1246057 A2

The cited document represents the general state of the art.

The invention defined in claims 1- 39 is not disclosed by this document.

The cited prior art does not give any indication that would lead a person skilled in the art to the claimed method, and system for providing service selection at a mobile terminal, in which service components having different media formats are transmitted in a time-sliced manner; and where service identifications relating to the components are generated. D1 also fails in describing a method and system where the service identification is repeatedly transmitted together with the information relating to timing of transmissions of the service identification data.

Supplemental Box

In case the space in any of the preceding boxes is not sufficient.  
Continuation of: BOX V

Therefore, the claimed invention is not obvious to a person skilled in the art.

Accordingly, the invention defined in claims 1-39 is novel and is considered to involve an inventive step. The invention is industrially applicable.
